Muséum national d'Histoire naturelle, Paris
July 6-10, 2015

EUROGARD VII
PARIS

Poster Preparation Guidelines

The posters selected by the scientific committee will be displayed for all the conference.

Information to the authors for the display of posters

A freestanding compatible poster board will be provided. Your poster number will appear on the top right hand side of the board so you can locate your board easily. Please check you poster number in the program closer to the conference.

Poster Sessions

Authors are requested to be available for questions during the scheduled poster sessions.
It is desirable to provide takeaway versions of the poster in A4 format.

Poster Guidelines

Your poster should not exceed the size of a standard **A0** (84.1cm x 118.9cm) in **portrait layout**.
In order to efficiently communicate the results of your research to the viewers, you are kindly requested to devote considerable effort in the design of your poster. Providing A4 takeaway versions of your poster is also encouraged.

Presenters may wish to consider the following;

- Avoid putting too much material and text on the poster.
- The heading should have letters at least 35mm (100 Pt) high listing the title of the paper, authors, institution and its location
- Lettering for text and illustrations should be at least 10mm (36 pt) high
- The introduction should contain 3 to 5 sentences outlining essential information necessary to understand the study and why it was done.
- The objectives of the study, the questions to be asked or the hypothesis to be tested should be clearly stated in as few words as possible.
- Outline your methods briefly
- Results should be presented as graphs or tables. They should be self-explanatory and therefore please provide a clear legend including symbols. You may also want to provide an interpretation of the results below each panel.
- The discussion (if necessary) and conclusions should be succinctly stated on large type. Many viewers read this first and hence it should be easy to understand.
